OFFICE CHAIR 2021

**800BAFCO**  
[www.bafco.com](http://www.bafco.com)

A good chair is not only an artwork but also a good partner.  
Repeated scrutiny of every detail to create a perfect product.  
The unique ergonomic design gives you the most meticulous care.

# MESH CHAIR

# STARTO SERIES

## ORIGINAL UNLIMITED

Inspired by **Adidas sneakers**, the overall style is soft and smooth, and the texture is soft and comfortable. Adjustable elastic waist support, **cushion damping technology** let work more leisurely.

# LANTO SERIES

## EXTRAORDINARY

The overall design of streamline modeling with 3D sense. The back frame adopts the revers shape to break the conventional staff chairs- flat type mesh structure.

The back net adopts the bionic design of the spider web. The mesh extends from the front to the back, replacing the traditional lumbar support, soft and breathable with comfortable rebound, giving the back a better support.

ELT80

ELT81

Humanized adjustment function, 4D function armrest, imitation of Apple mouse's curve shape. More suitable for the ergonomic curvature of the palm.

ELT81-2

ELT80-2

ELT61

ELT60

Elastic mesh, durable and non-deformable, with sophisticated materials, Lanto applies the principle of air convection, so that the whole body is bathed in the fresh air.

Color

Blue

Green

Grey

ELT60-2

ELT61-2

Streamlined chair, void structure cushion, mixed with the application of modern roadster elements, make this product closer to the modern aesthetics with the attitude car industry to carve the chair.

# YOTO SERIES

## SIMPLE STYLISH

Following the design of **Lanto series**- simplicity, the curve of **Yoto** is soft and beautiful. The backrest curvature adopts ergonomics, in order to give a healthy and comfortable working experience.

The back frame adopts the revers shape instead of traditional lumbar support, giving a better support. Imitation of Apple mouse's curve shape make it very ergonomic with curvature of the palm.

EYT80

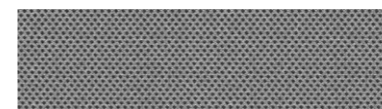

EYT81

The main body is rich in materials-**plastic and mesh**. Diverse not monotonous. The mesh is blue and gray. **Vitality and stability** can be chosen at will.

## EXTREMELY ELEGANCE

A chair that rivals the roadster. The combination of firm and flexibility. The use of corner cuts, smooth curve design, and the perfect combination of flexible beauty and strength, make S2 series unique.

## S2 SERIES

# CURVE

The back line is distinctive, **headrest is uniquely designed** to get rid of the regular seat shape and better support the head and neck. The handrail is designed with a front punch which **more stylish**.

**Multi-function handrail, STG synchronous tilting mechanism, simple and atmospheric, 3D adjustable waist support, using the artisan and superior appearance, showing users' good taste and nobility .**
