Redefining Comfort, One Seat at a Time.

Lifting lumbar support

The broad shaped cotton lifting waist support provides effective support for the waist and fully relieves the pressure of muscles and spine

Lifting headrest

More comprehensive head, waist and shoulder support, vertical lifting structure to meet the needs of more different heights

Heavy tilting mechanism

135 ° tilt structure, natural leaning, relaxed, stable and reassuring

We have been carefully grasping the use of lines and materials, and strive to reflect different structural beauty from every angle.

It's not only the appearance
responsibility, but also a better
comfortable experience. Those
who really care about you never
make superficial efforts.

Supervisor chair

Seat lifting

Head restraint lifting function

Lifting of lumbar support for better fit

3D handrail - lifting, rotating, sliding back and forth

Multi gear locking - self weight tilting mechanism

Sitting depth adjustment function

Task chair

Lifting of lumbar support for better fit

3D handrail - lifting, rotating, sliding back and forth

Multi gear locking - self weight tilting mechanism

Sitting depth adjustment function

S-shaped curve and close to back design make sedentary enjoyment. Stick to the back and support the spine to evenly disperse the force and support the waist and back to relax naturally.

GEECO

Support a healthy second spine
