Retro and simple appearance, stable structure, mature and stable design concept ,
with calm temperament.

The appearance of tea table is normally ignored by us. Actually, obtaining a unique modelling style, the tea table contributes to making the sitting room space more outstanding.

Concise geometry element reveals rational fashion, beautiful texture extended infinite possibility to the life.

FCJ17.14

Whether it is a warm home or an office space, this minimalist round high and low tea table can stand out from the environment, highlighting the master's extraordinary taste and style.

The design concept comes from the rocks suspended between the mountains, to break the static, to create a relationship between objects and space, with natural texture, natural and smooth texture, to create infinite space, giving the minimalist meaning in the contemporary context.

Exquisite combination, strong design process, let the space appear more luxurious style.

The smooth and thick desktop, with simple metal leg, is modern and full of understanding, and the traits of the model is versatile and fashionable.

The surface of the tea table is made of Lauren black gold rock finish, which is simple and luxurious, just as the beauty of nature. Three of different sizes and shapes table form a unique tea table.

The unique aesthetic feeling in the architectural space is integrated into the design, and the tea table is matched to transform the artistic touch into a meticulous taste.

Deposited humanistic connotation, implicit and introverted,
through the years of hone practice.
